**40 POST CREDITS**

**To Register contact:**

Dr. Mark Schmidt

Phone: (320) 308-4988

E-mail: [mark@stcloudstate.edu](mailto:mark@stcloudstate.edu)

Courses are offered in cooperation with the  
**National Forensics Training Center**

February 20-24, 2012

Located on the Saint Cloud State Campus

To keep up with all aspects of criminal behavior, law enforcement officers increasingly need special training to investigate crimes committed with and against computers. The training is a response to the increased ease with which people can access the Internet to commit crimes, as well as the increased emphasis on issues of homeland security. Participants will learn ways to uncover, protect, and exploit digital evidence to respond to crimes.
